

What an exciting time at Greenwich House Pottery! Things are really moving along with our Shape the Future Campaign to improve and expand the Pottery, and to make our historic home the facility we all want and need for the 21st century.

Thanks to a growing number of students, artists, Greenwich House board members and friends of the Pottery, we've raised the \$1,000,000 needed for Phase One of the campaign. This means you'll soon benefit from new kilns and an expanded kiln room, an elevator, an ADA-compliant bathroom, and the needed space for mixing and storing clay and glaze. Now, we're focusing on raising the funds needed for Phase Two, a \$1,500,000 total building renovation including new lighting, roofs, and skylights. It will make a world of difference for everyone at the Pottery, especially our students.

YOU help make the Pottery the vibrant community that it is, and together we can ensure the school also has outstanding facilities for you and all our students. Your voice matters in everything we're doing, and student input is a priority as we Shape the Future.

I hope you'll take a moment to answer [a few brief questions](#) about our ongoing efforts. We look forward to hearing from you as we make our dreams of an even better Greenwich House Pottery a reality.

Thank you,
