

March 22, 2022

We are excited to be able to share the good news that because New York City is currently at a **low level** of COVID-19 community spread, effective immediately, **all Older Adult Centers (OAC) may lift capacity limits and resume programming at 100% capacity.**

The following COVID-19 prevention measures and guidance remain in effect:

- All staff and participants should continue to wear masks indoors.

We will no longer require two dining rooms for vaccinated vs. unvaccinated at this time. *Please be advised- Some Classes that are not funded by DFTA may require their own Covid vaccine mandate.*

At this time we will continue to offer Grab and Go meals and virtual classes in addition to on site dining and programs.

Greenwich House will be in close communication with DFTA and DOHMH, and will be prepared to increase COVID-19 prevention measures, such as restoring reduced capacity limits, should the risk levels increase.

Should you have any questions, please direct them to your Center Director, hope to see you all soon!

Sincerely,
Laura Marceca
